

Dear Chairman Powell and Commissioners,
Our Founders knew freedom would be kept by an informed electorate, therefore created the Right to Freedom of the press. The key entry for fascism is to usurp the minds of the electorate via media sponsorship. Fascism motivates the price of our current political process.

Nowhere have I seen plain reporting of electoral process. How does a citizen register to vote? What are the various deadlines? Where do I go/ How do I participate? What am I do to? At the very least, to protect and preserve the Constitution, tell me, in an unbiased, non-partisan manner how to access a sample ballot. The purpose of the FCC is squandered. Fix it!

Sincerely,

Esther Murphy
